CORPORATE GOVERNANCE INTEL

Delta Filings

AI-powered SEBI compliance &
filing intelligence for Indian listed companies.

PREPARED FOR **Grant Thornton Bharat** · Regulatory Advisory Practice

Investor / Partner Pitch · May 2026

Company Secretaries spend 40% of their time on routine drafting & tracking — work AI does faster and better.

01

Repetitive Drafting

Every Reg 30 disclosure, board-meeting intimation, and voting result is re-typed from scratch — despite identical regulatory framing across hundreds of letters.

02

Compliance Tracking

SEBI now mandates 50+ filing types across LODR, PIT, SAST. Missing one = ₹1 lakh+ penalty per occurrence + brand damage. Most teams track by hand in spreadsheets.

03

Late Surprises

CS teams discover deadline misses days after the fact. No integrated tracker exists — alerts come from the regulator, not a workspace.

200+ regulatory letters/year per CS · **40%** of that volume is template-driven and AI-replaceable.

One workspace for everything a Company Secretary touches.

Real-time Filings

Every NSE corporate announcement pulled live, smart-tagged.

Compliance Dashboard

12+ LODR & PIT mandates auto-tracked, per-company health score.

AI Letter Drafting

54 SEBI filing types, drafted in your company's house style.

Live Prices + Alerts

NSE quotes, custom thresholds, instant Telegram pings.

"Why It Moved"

AI explains stock moves with news + sector + macro context.

Diff Engine + DIN Search

See what changed between filings; lookup any director by DIN.

Built India-localized (NSE / BSE / SEBI). Mobile-friendly. Razorpay payments. Ready for enterprise rollout.

AI-drafted SEBI letters, in your company's voice.

HOW IT WORKS

1. **Pick company + filing type**
   54 filing types supported across LODR / PIT / SAST / Buyback / ICDR.

2. **AI learns your house style**
   Reads up to 8 of your past filings, extracts standing phrases, cached 24h.

3. **Drafts body + annexures**
   Auto-generates Annexure I/II/III with markdown tables for voting results, complaint stats, financial results.

4. **AI Fill (Google-grounded)**
   Auto-populates CIN, registered office, sector, turnover from live data. User reviews → Apply → done.

WHAT THE USER GETS

₹1.2 lakh saved per CS, per year

(40% of drafting time × ₹15L median CS comp)

- Annexure I, II, III auto-generated with the right tables
- PDF + Word export — letterhead, BSE/NSE addresses, signature block
- 5-person team collaboration with role-based access (Editor / Viewer)
- Auto-saved drafts; share via single-use invite link
- Style fingerprint cached per company → consistent tone across drafts

FIRST IN INDIA · no other product offers AI letter drafting in the company's own tone, learned from their actual past filings.

₹500 Cr+ TAM in Indian compliance-tech.

DIRECT BUYERS

Listed companies
₹78–130 Cr

5,200 NSE/BSE listed companies × ₹4,999/yr base × 3–5 CS users average. Each company has at least one Compliance Officer + Company Secretary.

MID-MARKET ADJACENCY

Unlisted companies
₹250 Cr

50,000+ private cos required to comply with PIT / RPT / Companies Act 2013 disclosures. 10% adoption ceiling assumed in this estimate.

CHANNEL

Channel partner firms
₹150 Cr

1,000+ audit / CS / law firms (incl. Grant Thornton, BDO, big-4, Cyril Amarchand, AZB) servicing the above as channel partners. White-label margin.

ADJACENCY · SEBI is rolling out the same Integrated Filing format for NSE-listed REITs, InvITs, and debt securities — **3,000 additional issuers** enter the same compliance regime over the next 18 months.

Three trends just made this market a wedge.

01

Regulation forces re-platforming

Dec 2024

SEBI Circular CFD/PoD-1/2024/185

Consolidated 4 LODR filings (Reg 13/27/31/32) into one Integrated Filing-Governance with a 30-day window. Every listed company has to update its compliance workflow.

02

Penalty regime tightened

200+

companies fined in 2025

SEBI levied an average ₹4.7 lakh penalty per company for late or missed filings in 2025. Boards are now actively asking compliance teams for tooling.

03

Generative AI reached usable quality

100×

cheaper API than 2023

Gemini 2.5 Flash + Google Search grounding produce SEBI-tone drafts at ~₹0.075 per generation. Three years ago this cost ₹8 per draft and didn't match house style.

We're the first to combine all three. Window is 18–24 months before incumbent CS-software vendors retrofit.

Live, deployed, paying users.

9	54	6	92%

WHAT'S SHIPPED

- Live at delta-filings.up.railway.app
- Razorpay payment gating + WELCOME2026 referral codes for partner distribution
- Telegram bot live: @DeltaFillingAlertBot
- Team collaboration with up to 5 invitees per draft, role-based access
- End-to-end deployed on Railway with Supabase auth + SQLite (WAL mode) cache
- Solo founder + AI-assisted dev. Build cost to date: under ₹50,000.

Picked for cost, speed, and India-fit.

Frontend	Tailwind CSS + Quill rich-text editor, server-rendered Jinja2 templates
Application	Flask (Python). Single-process, threaded background workers
Auth	Supabase (₹0/mo for <50k users)
Cache / DB	SQLite with WAL mode — concurrent reads + non-blocking writes
AI	Gemini 2.5 Flash + Google Search grounding · $0.15 / $0.60 per 1M tokens
Data sources	NSE corporate-announcements API, BSE announcements, SEBI orders archive, Reddit, Google News RSS
Notifications	Telegram Bot API (free) · WhatsApp Business (planned)
Payments	Razorpay — UPI / cards / netbanking · 2% per transaction
Hosting	Railway · ~₹2,000/mo at current scale · auto-scales to ₹15k at 10k users

Single-engineer maintainable. No GPU costs. No Kubernetes.

₹4,999 per user per year at 92% gross margin.

COGS / USER / YEAR

Razorpay fee (2% of ₹4,999)	₹100
Gemini API (~50 drafts/mo × $0.0009 × 12 mo)	₹50
Telegram alerts (free tier)	₹0
Cache + DB (proportional Railway / Supabase)	₹150
NSE / BSE / SEBI scraping (own infra)	₹50
Customer support, amortized	₹60
TOTAL COGS	**₹410**

Gross margin per user: **₹4,589 (92%)**

AT SCALE

1,000 users

₹50 lakh ARR

→ ₹46 lakh contribution at 92% GM

10,000 users

₹5 Cr ARR

→ ₹4.6 Cr contribution. Self-funding by month 14.

Self-serve · Team · White-label.

INDIVIDUAL

₹4,999 / year

Solo CS / compliance officer

- ✓ 1 user · full platform
- ✓ AI drafts · 54 filing types
- ✓ Telegram price alerts
- ✓ Up to 5-collaborator drafts
- ✓ PDF + Word export

RECOMMENDED

TEAM (5–25 SEATS)

₹3,999 / seat / year

Listed-company compliance team

- ✓ Volume discount (~20% off)
- ✓ Admin dashboard, role mgmt
- ✓ SSO ready (Q4)
- ✓ Audit log of all edits
- ✓ Same feature breadth

FIRM / WHITE-LABEL

₹50k–5L / year (custom)

Audit / CS / law firms

- ✓ Co-branded UX
- ✓ Multi-company watchlist mgmt
- ✓ API access for internal tools
- ✓ 30% rev-share path
- ✓ Dedicated success contact

Distribution levers: WELCOME2026 (public free tier) · partner codes (free for partner-distributed users) — measurable, attribution-friendly

Where the 40% time-saving comes from.

TASK	CURRENT EFFORT	WITH DELTA FILINGS	SAVED
Drafting Reg 30 disclosure	60–90 min	AI drafts body + annexures in 8 sec; user fills 2–3 fields	90%
Tracking quarterly compliance deadlines	4 hrs / week	Auto-tracked + email/Telegram alerts	95%
Filing-archive lookup (find a past similar letter)	30–60 min / lookup	Searchable, AI-summarized, one click	80%
Newspaper publication checklist (Reg 47)	2 hrs / quarter	Auto-generated checklist + draft	70%
AGM / EGM voting-result drafting	4–6 hrs	AI populates from scrutinizer XBRL	85%
Director-change SEBI Cir 2015 disclosure annexure	2–3 hrs	AI fills 9-point profile Q&A automatically	88%

Weighted average across 200+ letters/yr → **40% time saved.** At ₹15–30L median CS comp → ₹6–12L savings per CS / year. **Platform pays for itself in 2–3 weeks.**

No competitor offers all five.

PRODUCT	AI Drafting (in your tone)	Real-time SEBI tracker	Telegram alerts	"Why moved" AI analysis	Team collaboration
MCA21 portal	✗	✗	✗	✗	✗
NSE / BSE filing tools	✗	✓	✗	✗	✗
LegalTech CS suites (Lawrbit, ClearTax CS)	✗	✓	✗	✗	✓
KazOO / iFlex compliance	✗	✓	✗	✗	✓
Delta Filings	✓	✓	✓	✓	✓

Closest competitor (Lawrbit) charges **₹50k–1L/yr** for compliance tracking only — **10× our price**, with no AI drafting and no team collaboration.

Three motions, sequenced by CAC efficiency.

01

Self-serve · SEO + LinkedIn

CAC ~₹500 – ₹1,000

Search queries like "SEBI Reg 30 letter format", "Reg 33 disclosure template" rank well for low-competition India terms. LinkedIn ads to CS / Compliance Officer titles. Goal: 300 self-serve users in months 1–6.

02

Partner channel · firms refer

CAC ~₹2,000 (rev-share)

Audit / CS / law firms (Grant Thornton, BDO, Cyril Amarchand, AZB) refer their listed-company clients with co-branded onboarding. Partner gets 30% rev-share. Goal: 5 firm partnerships, 500 referred users.

03

Webinars · ICSI institutional

CAC ~₹300 (cost of webinars)

Institute of Company Secretaries of India has 70,000+ members. Quarterly free training ("AI for SEBI compliance") = enterprise lead funnel + brand authority. Goal: 200+ attendees / quarter.

12-month goal: **1,000 paying individuals + 5 firm partnerships.**

A wedge for Grant Thornton Bharat's Regulatory Advisory practice.

Client retention

Stickier engagements

Your listed-company clients adopt a paid SaaS layer that wraps their SEBI workflow. The advisory relationship now sits on top of a daily-used tool, not just quarterly meetings.

New revenue line

₹500 – ₹2,000 / user / yr

White-label as "GT Compliance Studio". We host, you brand. 30% rev-share at zero infrastructure investment. Compounds with every new client engagement.

Competitive moat

First-mover among Big-4

First Indian advisory firm to offer AI-drafted SEBI letters as part of its engagement. Defensible against KPMG / EY / Deloitte for the 18–24 months while they build internally.

PILOT PROPOSAL

10 GT-managed listed companies × 90 days × free access. Joint case study at the end. Then revenue-share rollout.

12-month plan to ₹10 Cr ARR.

Q3 2026

1,000 individual users

WhatsApp Business notifications · real-time CRDT collaboration cursors · payment gateway live (UPI / cards / netbanking)

Q4 2026

3 firm partnerships signed

SOC 2 readiness · enterprise SSO (SAML) · audit-trail with immutable history · admin dashboard

Q1 2027

₹3 Cr ARR

Hindi + regional language drafting · Acquihire defensive moat against Lawrbit / KazOO · auto-drafted Reg 24A ASCR

Q2 2027

₹10 Cr ARR · Series A

REIT / InvIT / NCD adjacency rolled out · MCA-21 integration for ROC filings · 25-person team

Built lean, on purpose.

PS

Prakhar Singh

Founder & Engineer

Built and shipped Delta Filings end-to-end in 6 weeks. Background in software engineering and Indian capital-markets domain.

delta-filings.up.railway.app · prakhar@delta-filings.com

ADVISORS WE'RE LOOKING FOR

- SEBI / regulatory veteran (ex-SEBI, big-4 partner)
- India SaaS GTM lead (B2B distribution playbook)
- Practising Company Secretary (product feedback loop)

WHY SOLO + AI WORKS FOR V1

9

production features shipped end-to-end in 6 weeks.

< ₹50k

build cost to date — APIs, hosting, design, deployment.

3

people needed to scale to ₹10 Cr ARR with no engineering bottleneck.

Partner with us. Three paths.

OPTION A

Pilot

90 days

Run a 90-day pilot with 10 GT-managed listed companies. Free access for them, joint case study at the end, exclusive 6-month head start for GT in the market.

OPTION B

White-label

30% rev-share

Roll out "GT Compliance Studio" to all your listed-company clients. We host and maintain, you brand and distribute. Zero infrastructure investment from your side.

OPTION C

Strategic invest

Seed round

Lead a seed round / strategic investment to fund team and sales. Use of funds: 60% engineering (real-time collab, SOC 2), 30% GTM, 10% partnerships.
